Reviews

Completely among the finest ebook We have at any time read through. it was actually writtern really properly and helpful. You are going to like just how the writer compose this publication.
(Mr. Deangelo Considine)

ADVANCED EXPRESS WEB APPLICATION DEVELOPMENT

Packt Publishing. Paperback. Book Condition: New. Paperback. 148 pages. Dimensions: 9.1in. x 7.3in. x 0.5in.For experienced JavaScript developers this book is all you need to build highly scalable, robust applications using Express. It takes you step by step through the development of a single page application so you learn empirically. Overview Learn how to build scalable, robust, and reliable web applications with Express using a test-first, feature-driven approach Full of practical tips and real world examples, and delivered in an easy-to-read format Explore and tackle the issues you encounter in commercially developing and deploying an Express application In Detail Building an Express application that is reliable, robust, maintainable, testable, and can scale beyond a single server requires a bit of extra thought and effort. Express applications that need to survive in a production environment will need to reach out to the Node ecosystem and beyond, for support. You will start by laying the foundations of your software development journey, as you drive-out features under test. You will move on quickly to expand on your existing knowledge, learning how to create a web API and a consuming client. You will then introduce a real-time element in your application. Following on from this, you will begin a process of incrementally improving your application and tackle security, SSL support, and security vulnerabilities. Next, the book will take you through the process of scaling and then decoupling your application. Finally, you will take a look at various methods to improve your applications performance and reliability. What you will learn from this book Develop a feature driven Express web application Build and consume a RESTful web API using client and server side templating Secure and protect Express with passport authentication and SSL via stud Scale Express beyond a single server with Redis and Hipache Decouple...
