

Indigestion and biliousness

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.
(Prof. Loyce Runolfsson Jr.)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 84 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1881 Excerpt: . . . in small quantity; whereas, in birds, in which lithic acid takes the place of urea, as the great eliminator of nitrogen, it also takes the place of urea in the liver, as it probably does in the human liver under certain pathological conditions. All these observations point to the liver as being largely concerned in the destructive metamorphosis of albuminoid matter, the products of which are eliminated by the kidneys; although it is not improbable that other glandular organs, and even the corpuscles in the circulating blood, as believed by H. Ludwig and Fuhrer, may contribute to the process. A certain amount of body-heat is formed by these processes going on in the liver. Again, Galen is corroborated in his opinion, that the liver is a great centre of animal heat. This second function of the liver, namely, the oxidation of waste and surplus nitrogenized material, is one of the greatest moment in the treatment of liver-derangements. It is in the metabolism of albuminoids that we find the origin of many maladies. Dr. Murchison writes: The third function of the liver is the secretion of the bile, The composition of this substance is complex, and its uses are not yet sufficiently known. The coloring matter of bile is formed from haemoglobin by the hepatic cells, in the passage of the blood through the liver. Then again, There are, on the other hand, grounds for believing that bile-pigment is in its turn converted into urinary pigment. It...
