Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.I wrote this book to first show how a learning disability, such as dyslexia, can effect creative thinking. Since Einstein displayed a learning disability in his early years, many modern educators believe he had dyslexia. Secondly, I wrote this book to show how I, as a diagnosed dyslexic, have similar thought processes as Einstein, even if it is at a different level. Thirdly, I try to show how I use modern theories (i.e. quantum theory and M theory) to explain current mysteries of theoretical physics. I do not or cannot use higher math for these findings. I simply rely on end results of theoretical physics for my base. Einstein said he was a poor mathematician, but compared to him I fall way short! The conclusions that I draw from current theories leads me to postulate and theorize about: dark matter, dark energy, super-symmetry, the eleven dimensions of space-time, the unification of forces, the spin of particles, electron orbital s, eternity, the theory of everything (TOE), beginning and end of the universe, plus I introduce a new particle, --- The Space-Time-Energy-Particle (STEP). I postulate that quantum theory (and as Einstein believed) is incomplete and what can happen-will happen is only true if STEPs entangled with quantum theory allow these happenings to take place. This is THE NEW REALITY. I in no way think that I could tie Einstein s shoe laces. My thoughts are based on his view of quantum theory etc. Everything that I have postulated in this book may not bear fruit, but just maybe the underlying concepts will. A paradigm shift away from atheistic theoretical physics concepts to a more deity-agnostic or spiritual approach is needed....
